DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-11 are allowed.
3. The following is an examiner's statement of reasons for allowance: The primary reason for the allowability of the claims is the inclusion of the limitation, "said interface device programmed to autonomously check a type of the external device connected to said interface device and to select an appropriate subset of said operating modes for the type of the external device," as recited in independent claim 1. The prior art references are directed to providing an interface to process external devices adapted to differing fieldbus protocols, while the claims in the present application are directed to providing an interface to process control devices adapted to differing fieldbus protocols, where the interface has operating modes, which are selected according to the type of external device detected.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
